Software engineer with 5+ years of experience in PHP, Laravel, CodeIgniter, and modern web applications across ERP, E-commerce, Payment Systems, SaaS, CMS, and AI platforms. Skilled in backend architecture, RESTful APIs, database optimization, and full-stack development using Laravel, React, TypeScript, Inertia.js, and Statamic CMS. Focused on building scalable, high-performance solutions with clean and efficient code.

✓ EXPERIENCE

JUL, 2025 – PRESENT

WEB DEVELOPER, THEEN LLC, SAUDI ARABIA

- Developing and maintaining modern web applications using Laravel, React, TypeScript, Inertia.js, and Statamic CMS for portfolio, business, and event management platforms.
- Built scalable backend architecture, customized CMS-driven solutions, optimized application performance, and improved development efficiency using AI-assisted tools like Cursor, ChatGPT, Gemini AI, and GitHub Copilot.

AUG, 2023 – JUN, 2025

BACKEND DEVELOPER, TECHVILLAGE

- Built and maintained multiple systems including PayMoney, Artifism, and Martvill using Laravel, React, jQuery, and MySQL for payment, AI content generation, and e-commerce platforms.
- Developed scalable backend solutions, RESTful APIs, optimized database performance, and collaborated with frontend and QA teams to ensure code quality and reliable delivery.

FEB, 2021 – JUL, 2023

PHP DEVELOPER, BDTASK LIMITED

- Worked on multiple systems including Newspaper platforms, ERP, Hotel, and Restaurant Management applications using CodeIgniter, Laravel, MySQL, and JavaScript.
- Developed and deployed web applications, solved complex database queries, maintained system integrity, and supported applications tailored for Codecanyon distribution.

AUG, 2020 – JAN, 2021

JUNIOR WEB DEVELOPER, HRSOFTBD

- Built and maintained web applications using CodeIgniter, JavaScript, AJAX, Bootstrap, and CSS while supporting frontend development, testing, and system validation across multiple projects.

✓ SKILLS

- **Backend Development:** PHP, Laravel, CodeIgniter, RESTful API Development, Statamic CMS, Inertia.js.
- **Frontend Development:** React.js, TypeScript, JavaScript, jQuery, AJAX, Bootstrap, Tailwind CSS.
- **Database:** MySQL, Database Optimization, Query Performance Tuning.
- **AI-Assisted Development Tools:** Cursor, ChatGPT, T3 chat, Gemini AI, GitHub Copilot.
- **Tools & Platforms:** Git, GitHub, Bitbucket, SourceTree, Jira, ClickUp, DigitalOcean, Postman.
- **Domain Experience:** ERP Solutions, E-commerce Platforms, SaaS Applications, Payment Gateway Systems, AI-based Platforms, Event Management Systems, Portfolio & Business Websites.

✓ PROJECTS

- **YellowHouse** (Statamic CMS, React, TypeScript, Tailwind CSS)
A creative event management and exhibition platform for delivering immersive event experiences and business solutions.
 - Developed and maintained CMS-driven pages for event services, exhibitions, booth design, and high-tech installations using Statamic CMS and React.js.
 - Built dynamic frontend components, customized content management workflows, and optimized performance for multilingual and content-rich business platforms.
- **PayMoney** (Laravel, jQuery, MySQL, Bootstrap) Demo: paymoney.techvill.net
A secure online payment gateway system for managing digital transactions.
 - Worked on core payment features including Payment Links, Agent Payments, Escrow Contracts, Donations, and Virtual Cards with Stripe and PayPal integration.
 - Customized client requirements and built dynamic reporting tools for transaction tracking and business analytics.
- **Artifism** (Laravel, jQuery, MySQL, React, Bootstrap) Demo: artifism.techvill.net
A SaaS platform for generating AI-powered content and images for digital marketing.
 - Worked on AI-powered features including long article generation, code writer, speech-to-text, team management, and affiliate modules.
 - Implemented dynamic reporting systems and developed a support ticket system to improve user-admin communication and operational tracking.
- **Martvill** (Laravel, jQuery, MySQL, React, Bootstrap) Demo: martvill.techvill.net
A multivendor eCommerce platform offering product management, vendor control, and order tracking features.
 - Implemented several dynamic reporting functionalities for usage tracking and business insights.
 - Customized client projects based on specific business requirements and workflow needs.
- **Hotel Management System** (CodeIgniter, jQuery, MySQL.) Demo: xainhotellatest.bdtask-demo.com
A complete hotel management solution including reservations, room service, and billing.
 - Worked with features such as Room booking, Pool, laundry, Restaurant, Transport Facility and several reports.
- **Restaurant Management System** (CodeIgniter, jQuery, MySQL.) Demo: bhojonlatest.bdtask-demo.com
A web-based POS and restaurant management platform for managing orders, tables, and menus.
 - Worked with features such as order, food and purchase, HRM, shift management, and reporting modules.

✓ EDUCATION

2016 – 2020

Bachelor of Computer Science and Engineering.

Britannia University, Cumilla.

CGPA – 3.36

✓ LANGUAGE PROFICIENCY

Bengali — Fluent (Speaking, Reading, Writing)

English — Professional Working Proficiency.
